Product description

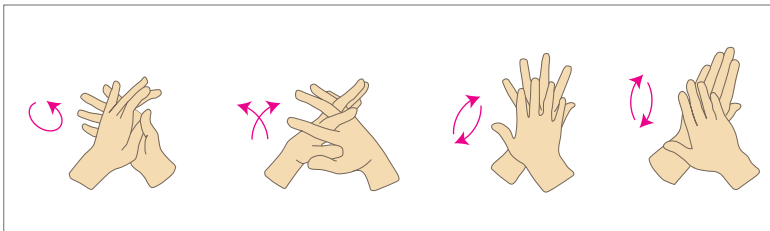

Hand Disinfectant Rub

Date of revision: 24/06/19 v1.1

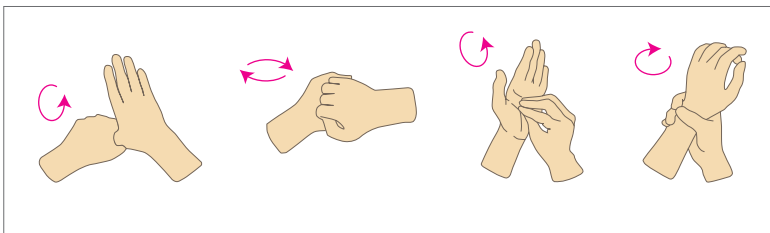

topdental™
Bossklein®

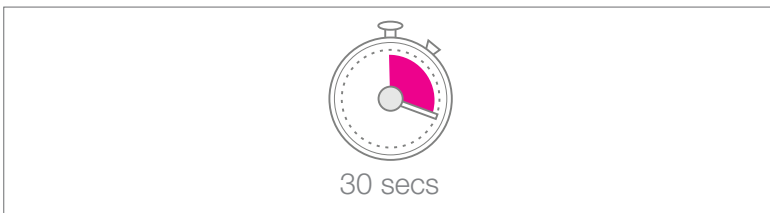

1. Ensure hands are clean and dry.
Dispense approx 5 ml into palm
of one hand.

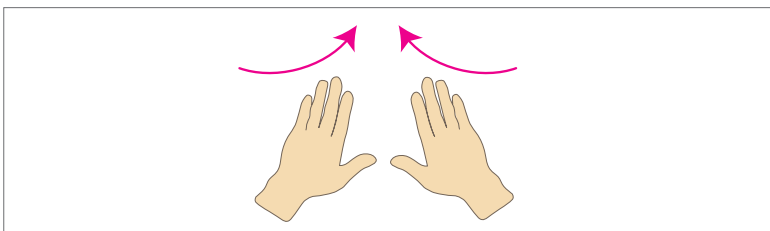

2. Rub hands palm to palm. Rub palms
over the backs of each hand and rub
with fingers interlaced.

3. Rub the thumbs in the opposing palm.

4. Ensure all surfaces of the hands are
covered and keep rubbing for 30
seconds.

5. Allow the hands to dry naturally.

6. Suitable for frequent use.
Use biocides safely.
Always read the label before use.
